

BILIOUSNESS Is an affection of the Liver, and can be thoroughly cured by that Grand Regulator of the Liver and

Biliary Organs, SIMMONS LIVER REGULATOR!

MANUFORU RED BY

I was afflicted for several years with disordered liver, which resulted in a severe attack of jaundice. I had as good medical attendance as our section affords, who talled utterly to restore me to the enjoyment of my former good health. I then tried the favorite prescription of one of the most renowned physicians of Louisville, Ky, but to no purpose; whereupon I was induced to try SIMMONS LIVER REGULATOR. I found immediate benealt from its use, and it

A VAST, NEW SYSTEM.

The C., H. & S. Enterprise Steadily Growing-Some Interesting Railroad Matter.

"I have just returned from Ilinois," said Chief Engineer Williams, of the Chicago, Hannibal & Springfield this morning. "We are running a preliminary line from Hannibal to Chicago. We do not intend to build the entire line between those points, but we will J. H. Zeilin & Co., Philadelphia, Pa. construct a railroad as far east of Hannibal as Peoria or Streator; from one of these points we will run into Chicago on some existing road. You may say that so much business of great importance has been occupying the minds of the gentlemen at headquarters that local matters, such as the permanent location of the line in this por-

tion of Missouri, have been allowed to take a back seat.

"We now have as fine a line as was ever run. From Galveston, Texas to Chicago, we gain fully two."

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER Co., 196 Wall St. N. Y.

42-48t Texas to Chicago, we gain fully two hundred miles over any existing line. I have enough office work here to keep my present force of pay for a drink of water but once men at work all summer.

On the twenty-first day of May, 1888, upon application by petition therefor, signed by 121 names, more than one-tenth of the qualified voters of the city of Mexico, said city having a population of more than twenty-five hundred inhabitants, to the City Council of the city of Mexico, Mo., said City Council ordered an election to be held in said city on Friday, the 22nd day of June, 1888 at which the qualified voters and no others shall vote, to determine whether or not spirituous or intoxicating li-quors shall be sold within the limits of

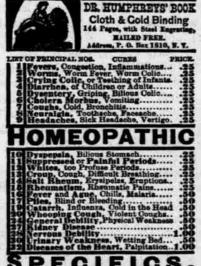

said city.

In pursuance of said order, notice is hereby given that, an election to determine whether or not spirituous or intoxicating liquors, including beer and wine, shall be sold within the corporate limits of the city of Mexico, Missouri, will be held at the Court House, in said city of Mexico, on

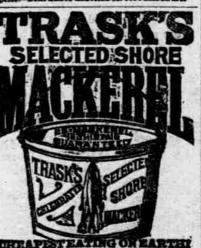

Friday, June 22nd, 1888, at which election those, and no others, shall be entitled to vote who are quali-fied voters of said city; that all persons voting at said election who are against the sale of intoxicating liquors shall have written or printed on their ballots "against the sale of intoxicating liquors," and all those who are in favor of the sale of intoxicating liquors shall

THE ELDRIDGE

Draft Mover

It will do as much work as two side-cut machines. Hay will cure in one-third the time. Simplicity of construction. No bevel gears causing waste of

power and adding friction. Easiest handled and most perfect working mower in the The crop is left untrampled, light and loose.

Can mow on any side, choosing the one most favorable for best work, which is a great advantage where the crop is lodged. Advantage of having the cured hay in a body. The first hay cut is the first ready for raking and stacking.

Cuts a full swath every time. It is the easiest machine to ride, having a long axle and

Horses being spread wide apart work easier and cooler. Our patent under-draft takes all weight off the horses' necks Direct draft is the correct principle. Put your work behind your horses if you would have them do it easiest.

COMPARATIVE CAPACITY OF THE EUREKA AND THE SIDE-CUT MOWERS.

Distance traveled to mow 20 acres with the 41-2 foot side

Distance traveled to mow 20 acres with the 7 foot Eureka This gives a difference of 13 miles less travel with the Eureka

than with the side-cut in mowing 20 acres. Add to the above advantage possessed by the Eureka the fact that the grass cut with our machine will cure in one-third less time, it being untrampled, and we have substantiated our claim that double the amount of work can be accomplished in the same time with the Eureka than with the side-cut mower.

The cutting being directly behind the horses the draft is no greater upon the Eureka than upon the 4 1-2 foot side-cut. In connection with the above proposition, do not lose sight of the fact that there must be additional wear and tear upon the side-cut over the Eureka, as it has to travel in operation 13 miles

more to do the same work. What is true in cutting 20 acres is also true of all work done in the lifetime of a machine.
